**S. S. WHITE HANDPIECES
NOS. 9 & 10**

Unquestionably the correct selection for long, dependable service. All steel bearings and running parts (nosepiece, spindle, wrist-joint pulley wheels and shafts) are nitrided, which means they are far harder, more durable, than steels with the usual heat treatments. The nitrided spindle is of one piece, assuring true alignment, less friction, less heat, greater resistance to wear. This handpiece can be taken apart and assembled without tools. Can be sterilized repeatedly by boiling in water or oil, in an autoclave, or the standard cold solutions. It has a high resistance to rust. Has no soldered parts; a simple adjustment to "take up" wear and a stop which prevents spinning of the sheath. Has a universal latch attachment for any engine arm.

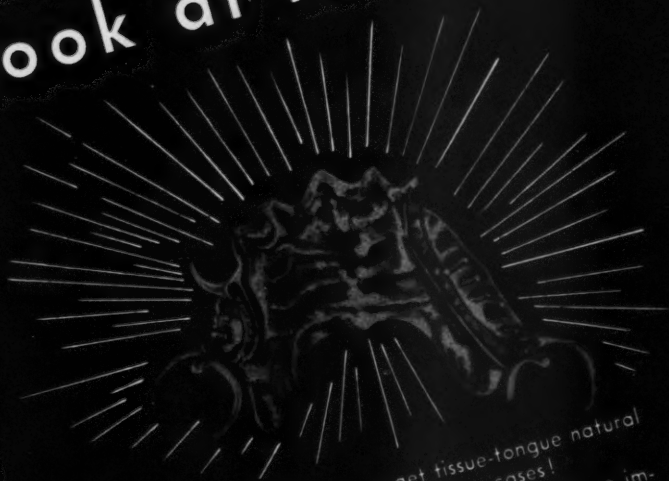

Sold at reliable dealers everywhere

Chicago Dental Society Midwinter Meeting
Feb. 3 through 7

The Fortnightly **REVIEW** *of* **THE CHICAGO DENTAL SOCIETY**

Dec. 1, 1951

Volume 22 • Number 11

Statement of the Dental Prosthetic Service Committee of the Chicago Dental Society

In view of the recent developments in the relations between members of the dental profession and of the dental laboratory craft, the Dental Prosthetic Service Committee believes it necessary and desirable to have the Chicago Dental Society restate its position on some of the fundamental issues involved in these relations.

Upon the recommendation of the Dental Prosthetic Service Committee, the Board of Directors adopted this policy at its meeting November 20th, 1951, and directed that it be published in the **FORTNIGHTLY REVIEW**.

Responsibilities of the Dental Profession and the Dental Laboratory Craft—The legally qualified members of the dental profession and, to a more limited extent, the legally qualified dental hygienist, alone have right and responsibility of rendering dental service directly to the public. The dental laboratory and the dental laboratory technician are adjuncts of the dental profession, but in no sense can they be considered as agencies and individuals capable of rendering an independent health service directly to the public.

The Dental Practice Act of the State of Illinois—The Dental Practice Act of the State of Illinois is the legal definition

of the rights and responsibilities which are involved in the practice of dentistry. The chief purpose of this Act is to protect the health and welfare of the citizens of Illinois, and it is the duty of the State of Illinois, through its official agencies, to accomplish the continued enforcement of the Act. The Chicago Dental Society, in accord with policies established by the Illinois State Dental Society, makes available to the official agencies of the State of Illinois all of its facilities to aid enforcement of the Dental Practice Act.

Violations of the Dental Practice Act are known to be increasing and responsibility for this increased danger to the health of the public must be placed squarely on those public officials whose duty it is to enforce the Act.

As evidence of its concern, the Chicago Dental Society has recently filed a civil suit against 37 laboratories allegedly engaged in the illegal practice of dentistry. The outcome of this action remains to be established by the courts. In the interval it should be recognized that the members of the Chicago Dental Society, by use of their own means and resources, are attempting to find some solution for a problem which can be settled permanently only by continued vigilance and action on the part of the state government. The enforcement of the existing

Dental Practice Act is a matter of the highest urgency.

Relations of the Chicago Dental Society and the Dental Laboratory Craft—The obligation of dentists to provide the highest quality of service of which they are capable depends in many instances upon their use of auxiliary personnel. This obligation is clearly stated in the *Principles of Ethics* of the American Dental Association:

"The dentist has an obligation to protect the health of his patient by not delegating to a person less qualified any service or operation which requires the professional competence of a dentist. The dentist has a further obligation of supervising the work of all auxiliary personnel in the interests of rendering the best service to the patient."

The Chicago Dental Society directs the attention of its members, and that of all auxiliary dental personnel, to this principle.

Admission to Dental Society Meetings
—The Chicago Dental Society believes

that the attendance of qualified members of the dental laboratory craft at its meetings is a contribution to improved understanding and cooperation. The Society will be glad to continue to receive such members as its guests when sponsored by a member of the Society.

Liaison With Laboratory Groups — The Chicago Dental Society cannot concern itself with internal problems of the laboratory craft that do not relate to the discharge of the duties of the dental profession. However, the Society is always interested in discussing problems of the profession and the craft that will result in better service to the public.

Unionization of Dental Laboratory Technicians—The Chicago Dental Society freely acknowledges the right of dental laboratory technicians or any other group to organize in accord with existing statutes of state and nation. The Chicago Dental Society, however, will continue to speak frankly when the methods and objectives of union organization are such as to impair the dental profession's ability to render dental service to the public.

Contributions to the American Dental Association Relief Fund may be deducted from your income tax. You can't give your money to a more worthy cause. Contribute to the A.D.A. Relief Fund!

JOSEPH C. ULIS
President
Northwest Side Branch

Joseph C. Ulis, President of the Northwest Side Branch of the Chicago Dental Society, was graduated from the Chicago College of Dental Surgery, Loyola University, in 1928.

Dr. Ulis served as chairman of the Registration Committee of one of the past Midwinter Meetings of the Chicago Dental Society and has served on many other committees of Midwinter Meetings.

He is Treasurer of Xi Psi Phi Fraternity Alumni. He is a member and Director of the Denture Research Group, a member of the American Society of Dentistry for Children and Director and Program Chairman of the Dental Arts Club. He has served as Secretary, Treasurer, and Vice-President of his Branch.

Regular Monthly Meeting—

CHICAGO DENTAL SOCIETY

8 P. M. *North Ballroom The Conrad Hilton*

TUESDAY, DECEMBER 18th

The essayist is GILBERT H. MARQUARDT, M.D.,
Assistant Professor of Medicine at
Northwestern University Medical
School, a member of the Attending
Staff at Wesley Hospital, Civilian
Consultant for the U. S. Air Force
and Chief of the Consulting Staff at
the Oak Forest Infirmary.

His title is THE HAZARDS OF DENTISTRY.

Dr. Marquardt will endeavor to point out to us the various manners in which we can avoid the pitfalls inherent in a dental practice and how we can establish those working habits and take the precautions as we go about our daily routines that will aid us in achieving and maintaining good physical and mental health.

He will also comment on his recent work in blood stream infections and the use of antibiotics as applied to dentistry.

"Your efforts to get to the meeting room on time and help start our meetings on the dot are most deeply appreciated"—

Edwin W. Baumann, President

EDITORIAL

[Editor's Note: *The following is an editorial which appeared in the November 7 issue of The Cadet Review, a student publication of St. John's Military Academy, Delafield, Wisconsin.*]

DOES HONESTY PAY?

Not long ago I was talking with a prominent attorney about some of the problems of his profession, and I asked him what he considered the most important qualification for success as a lawyer. Without a moment's hesitation, he replied, "Integrity and unfailing honesty. The lawyer who commands the confidence of fellow lawyers, judges, and the public is in a most enviable position."

"It is commonly believed," this man said, "that trickery and deceit are frequently practiced by lawyers, and it is unfortunately true that some members of the bar stoop to questionable practices, though the extent of dishonesty in the profession is exaggerated. When a lawyer is crooked, people soon find it out just as they are likely to see the true character of anyone, whatever his occupation. What the people are less likely to understand is that a large proportion of all lawyers are not successful. Many of them scarcely make a living, and among these unsuccessful ones, many of the tricksters are to be found. But among the truly eminent members of the bar, dishonesty is rare. The men at the top are there because they have won the confidence of their associates and their clients."

This observation applies to all occupations, to every individual. Few people are so clever that they can conceal their true characters. It takes a good actor to be able to seem something that he is not. It may be done for a while, but one can't be on guard all the time. After a while, at an unsuspected moment, the mask will fall. A tell-tale word or act will give the secret away, and he will be known for what he is. If he is not dependable, he will not be trusted, and one who is not trusted will not succeed.

A self-respecting, public-spirited person will not, however, be too greatly concerned as to whether or not honesty "pays." We know that even though, on some occasions, we may gain by acts of dishonesty, others will lose. We know, furthermore, that no one can prosper or live decently except in a society where most people are honest and dependable. We know that the standards of honesty and dependability which prevail around us have been built up very slowly. We know that every act of dishonesty tends to tear down these standards. If you are dishonest, others, observing you, are more likely to be so. You are then kicking down the ladder by which people rise to higher standards of conduct. The community is worse, rather than better, because of your example. What intelligent person could be satisfied with such a reward?

I firmly believe that honesty pays in terms of the material reward. But far more important, it pays in terms of self-respect, of human happiness and social welfare. The individual of integrity and honor has the unsurpassed satisfaction of knowing that he is in line with the mighty forces which are building better homes, better communities, and a better, stronger nation.

West Side Branch Clinic Day

Wednesday, December 12

Midwest Hotel, 6 N. Hamlin

Distinguished Speaker —

State's Attorney John S. Boyle

His Subject — "Crime and Narcotics"

Commercial Exhibits

1:00 to 6:00 p.m.

Essay Presentations

Dr. Robert Pinkerton—4:00 to 5:00 p.m.

Dr. Bernard Friedman—5:00 to 6:00 p.m.

Table Clinics

1:00 to 5:00 p.m.

1. "Clinical Experiences with Xylocaine as a Local Anesthetic" by Dr. Edward J. Budill.
2. "Cast Gold Bridge and Inlay Construction Using Fast Curing Acrylic" by Dr. William Burke.
3. "Management of Pulp Exposure in Children" by Dr. Gerard J. Casey.
4. "A Technic for Constructing Fixed Bridge Work and Inlays Utilizing Plastics" by Dr. Daniel F. Duffy.
5. "Practical Endodontia" by Dr. Harold Epstein.
6. "Periodontia Diagnosis" by Dr. Maurice Falstein.
7. "Psychosomatic Principles of Denture Practice" with patient demonstration, by Drs. Frank A. Farrell, John J. McBride, C. Frankewicz, W. Spector, R. Van Dam.
8. "Orthodontia" by Dr. James J. Guerrero.
9. "Acrylic Jacket Crowns and Inlays" by Dr. Marion B. Hopkins.
10. "Root Canal Therapy" by Dr. Henry Kahn.
11. "Mucostatic Impressions" by Dr. P. L. Mathisen.
12. "Radiology for the General Practitioner" by Dr. Byron J. May.
13. "The Use of the Flap Operation in the Surgical Removal of Teeth" by Dr. William Lester McDaniel.
14. "Denture Acrylics, Their Dimensional Change in Processing, and the Dentist's Handling of the Problem" by Dr. David P. Redmond.
15. "Pedodontia" by Dr. Dorothy R. Rizzo.
16. "Crown Bridge Impression Technique" by Dr. Harry Spiro.
17. "Practical Plastic Procedure" by Dr. Roger K. Stockton.

Cocktail Hour

6:00 to 7:00 p.m.

Dinner

7:00 p.m.

Dentists, wives, families, dental assistants, and hygienists are invited to attend.

Clinic Day Committee: Michael DeRose, Chairman; Joseph F. Porto, Vice-Chairman; Irvin J. Altheim, Maury Massler, Arthur Meyer, Bernard Rodin.

NEWS AND ANNOUNCEMENTS

A & H PREMIUMS TAX FREE FOR PERSONS OVER 65

The recently enacted 1951 Revenue Act contains a substantial income tax liberalization making accident and health and hospitalization insurance premiums fully deductible as medical expenses for income tax purposes for all persons age 65 or over.

Under the present law applied to persons over 65, medical expenses are not deductible unless they exceed five per cent of adjusted gross income. There are maximums on the amount that can be deducted of \$1,250.00 for an individual, \$2,500.00 for a couple, \$3,750.00 for three persons, and \$5,000.00 for four or more persons. But, persons 65 or over now may deduct their medical expenses from adjusted gross income without regard to the five per cent stipulation. In other words, the very first items of medical expense will be deductible for them.—National Underwriter, 10-25-51.

MARQUETTE DENTAL SEMINAR

The Committee on Postgraduate Instruction of Marquette University School of Dentistry, 604 N. 16 St., Milwaukee 3, Wis., is offering a two-day seminar type course Friday and Saturday, January 25 and 26, covering virtually all phases of Prosthetic Dentistry. Nationally known speakers, outstanding in their fields, will be available for the course.

Registration may be made by addressing Postgraduate Division, Marquette University School of Dentistry, 604 N. 16 St., Milwaukee 3, Wis. The fee for the course is \$15.00. Attendance is limited and is on "first come, first served" basis.—*L. C. Alexander, D.D.S., Chairman, Committee on Postgraduate Instruction.*

VACANCIES IN ORGANIZED RESERVES

The 925th Reserve Training Wing was recently activated at O'Hare Field, Chicago, Illinois. It has been recently released that there are openings for two reserve dentists with the rank of Captain and one opening for a Prosthodontist with rank of Major in the Medical Group. Any interested parties are urged to call Rodney 3-0800, Extension 381, or call in person to the Reserved Personnel Office, 2471st Air Force Reserve Training Center, O'Hare Field at Higgins and Mannheim Road.

DENTISTS GIVE BLOOD!

Approximately thirty-five members of the Uptown Dental Forum, who are also members of the North Side Branch of the Chicago Dental Society, have arranged to participate as a group in the Red Cross Blood Bank Program. In the morning of Monday, December 3, they will meet a mobile Blood Bank unit at the Loyola Park Field House at Greenleaf and Sheridan. There, each will contribute a pint of blood as his part in the effort to help preserve the lives of our wounded soldiers.

As the need is very great, we urge all other members interested in this program to please contact the Red Cross Blood Bank immediately.

DENTAL ASSISTANTS CERTIFICATION EXAMINATION

The Illinois State and Chicago Dental Assistants Associations held a certification examination on Wednesday, November 14, 1951, at Loyola School of Dentistry, 1757 W. Harrison St. We wish to express our gratitude to Dean Baralt of

the College for making its facilities available to us.

The dentists who acted as examiners were Drs. R. M. Appleman, M. E. Chapin, B. P. Davidson, E. L. Irish, C. J. Madda, I. A. Oveson, and T. H. Vermeulen. Mr. E. T. Stephens, of the Chicago Dental Society, was also present.

The assistants who took the examination have just completed the 104-hour study course as outlined by the American Dental Assistants Association. Following are the names of those who took the examination: Frances Adams, Aldine Bevers, Ruth Bolling, Ida Brandon, Bertha Braunsdorf, Alice Carlson, Rose Chaplin, Alberta Christiano, Irene Ciemierek, Jeanne Coleman, Grace Dwyer, Carol Hendrickson, Kathryn Jacobs, Joann Johnson, Dorothy Koch, Josephine Landeck, Christina Lehigh, Filiona Mroczek, Harriet Nelson, Jeannette Ostermeier, Peggy Predl, Goldie Resnick, Blanche Sevenhouse, Maude Smith, Dorothy Sutton, Marion Wallace, and Katherine Wilson.

HOMECOMING AND CLINIC DAY UNIVERSITY OF ILLINOIS ALUMNI

Homecoming and Clinic Day for alumni of the University of Illinois College of Dentistry will be held on Wednesday, December 5. Registration will start at 9:00 a.m., followed by Departmental Clinics at 10:00 a.m. and luncheon at 12:00 noon.

At 2:00 p.m., the following clinics on the general subject of "Modern Methods of the Employment of X-rays in Diagnosis" will be held in Room 106.

1. "The 'Long Cone' Versus the 'Short Cone' The Undistorted and Standard Dental Roentgenographic Technics." By Dr. W. W. Wainwright, head of the Department of Radiology.

2. "Radiographic Interpretation as an Aid to Diagnosis" by Dr. Arthur Elfenbaum, chief examiner and associate professor of clinical dentistry.

3. "Interpretation of Cephalometric Headplates and Temporomandibular

Joint Laminograph" by Dr. Robert M. Ricketts, instructor in the Department of Orthodontics and instructor in the Cleft Palate Training Program and Center.

A Business Meeting will follow at 5:00 p.m. Dinner will be at the Chicago Illini Union at 6:45 p.m.

LABORATORY SERVICE AVAILABLE

Dentists desiring laboratory service for smears of Vincent's Disease and lactobacillus counts, should contact the nearest State Department of Public Health Laboratory. Laboratories are located in Chicago, Springfield, Carbondale, Champaign, and East St. Louis, Illinois.

Dentists are also urged to take advantage of biopsy service in the nearest cancer detection center. A pamphlet, entitled "Biopsy," explains the correct procedure of making a biopsy, and is available from the State Division of Dental Health.

POLICY OF THE STATE DEPARTMENT OF PUBLIC HEALTH ON FLUORIDATION OF PUBLIC WATER SUPPLIES

Medical, dental and engineering evidence indicates that the prevalence of dental decay can be substantially and safely reduced by adding fluorides to public water supplies. On the basis of this evidence, the Illinois Department of Public Health encourages the addition of fluorides to public water supplies, maintaining an optimum fluoride level of 1.0 to 1.5 parts per million. This procedure must be carried on in accordance with practices approved by the Illinois Department of Public Health.

Requirements to obtain approval:

1. The municipality must pass an ordinance or resolution indicating the public's decision to fluoridate the public water supply, submitting a copy to the Illinois Department of Public Health.

2. Evidence of acceptance and ap-

(Continued on page 30)

ADVANCE TICKET SALE OPENS

Annual Dinner Dance

Tickets for the Annual Dinner-Dance of the Chicago Dental Society are on sale as of December 1. A traditional highlight of the Midwinter Meeting, the Wednesday night dinner, show and dance has come to be the happiest and most enjoyable feature of the meeting and the one we all anticipate the most eagerly. A hard-working Entertainment Committee, headed by Harland New, has concocted a beautiful floor show, arranged a good menu for the dinner and made certain that the ten-piece dance band will follow the show with a lot of short dances so that all hands can get around and play the field. Lou Breese, who needs no introduction to Chicago audiences, will emcee the show and lead the band.

Tickets, \$7.50

*Send check or money order with your request for reservation.
Requests will be honored in the order they are received.*

Address: CHICAGO DENTAL SOCIETY

NEWS OF THE BRANCHES

NORTH SIDE

Everybody's back from the A.D.A. convention now and Bob Riemer reports to me that he had a grand time while he was there. He met Lyle Aseltine, Mel Zinser, Walt Buchmann, W. G. Schmidt, Ed Luebke, P. G. Stordock, and others. Most of these men, they tell me, joined the 4H Club—You know—Help Harry Hurry Home. . . . Mayland went from the A.D.A. convention down to Bethesda, Maryland, where he visited his daughter. . . . Sweeney's son, Jerome, is back at the front lines in Korea, after having been wounded. He is serving over there with the Marines. . . . Munger Hodgeman has been deer hunting in Colorado. He's going to have to tell us about it some day. . . . Sure is nice to see Harold Welch is back part time in the office again. . . . That lucky fellow, Leo Kremer, is down vacationing in Florida once again. . . . Two other lucky colleagues of ours, namely Pat Peterson and Dwight Barcroft, flew to and from Columbus, Ohio, where they took in the Northwestern-Ohio football game. Pat tells me that Dwight is quite a pilot. When I get my official trip, I'll let you in on the real dope. . . . The three Petersons, Clarence, Bob and Pat, together with Dwight Barcroft, John Anderson, Earl Grahn, and Herb Gustavson, meet at luncheon about once or twice a week. That way they keep up with all the gossip. . . . For the next six weeks or so, Van Carmichael will only be working half-days as the result of an automobile accident incurred while he was driving to St. Louis to visit a Dr. Greer. Van tells us that the gal that drove into him was talking and failed to see a stop sign, thus causing the accident. . . . Our next meeting is to be a "honey," according to Don Wise, our program chairman. Dr. Jarabak is going to speak to us on "Functional Anatomy as Applied to Dentures." His talk will

consist of a lecture combined with drawings on the blackboard and a practical demonstration using a wet specimen (head of a cadaver). The dinner will start promptly at seven with the meeting starting right at eight o'clock, and if you know Manley Elliott—you know the meeting will start on time. . . . Right, Manley? . . . Late Flash—they tell us that Bob Pond is quite a skeet shooter and is now trying his ability on pheasants. . . . Until the next issue then, let's remember your dental friend and boost him to the sky, 'cause he no doubt is doing the same for you.—*Herb Gustavson, Branch Correspondent.*

NORTH SUBURBAN

We went to the Georgian affair, More than 300 others were there, An attendance record was made, Which attests to the grade, Of Committees' diligence, interest, and care. . . . The staff at the hotel was great, Cooperating in the morning from eight, Until late in the night, They carried the fight, To completion with nary a wait. . . . Greeted by Adrian's bow which was low, We eagerly joined in the flow, Up to the room Tip Top, Where we finally did stop, And there did unfold the big show. . . . The new site was properly christened, By manufacturers' exhibits which glistened, The clinicians were good, And well understood, By the many in attendance who listened. . . . A deadline prohibits continuation of lyric form—so—. . . Two of our members will "twist a tooth for a few in '52," as they, Urban and Grimson, lead the Chicago Association of Orthodontists as President and Secretary, respectively. Grimson, again—as he bows out this fall as President of School Caucus No. 65, Evanston Community Consolidated, that is, the wife of member J. H. Pearce steps in as a member of the executive com-

mittee. . . . Grant MacLean eaves-dripped and passed on the news that F. S. Verink had left Main Street, Evanston. Confidentially, Grant, he went to 636 Church six months ago. Brother MacLean more than pulled his share of the clinic day load by hosting three guests. . . . We are justly proud of member Robert Johnson, All-American tackle, who received, with his teammates, deserving recognition as Northwestern University's first Big Ten football champions. Bob, with the others of the 1926 squad, were feted the week-end of November 10th. A suggestion that they suit-up, after being introduced on the 50 yard line during the half, for the remainder of that Saturday's ball game was met with great favor by many on-lookers. Johnson's comment: "Maybe—25 years ago." . . . Ed Baumann takes off for New York to attend the Greater New York dental meeting on 2 December, thence to visit his son at V. M. I. . . . Harrie Hall insists there are no newsworthy events from his area as Arlington Heights is a "typical quiet country village." That same town boasted 100% representation at the clinic day meeting. . . . Bill Bradford has carried on for R. K. Ephland in Park Ridge while Russ has served his stint at the Marine Base, Pendleton, California. . . . Congratulations to Smiley Parcell for his excellent management of the refreshment hour on the 14th of November. — Douglas W. Cook, Branch Co-Correspondent.

WEST SUBURBAN

THANKSGIVING—The time of the year we give thanks. *Thanks* for being citizens of this great country—America, the land of freedom and opportunity. *Thanks* for our own shortcomings, sorrow and loneliness which give us a deeper sympathy for others. *Thanks* for the food we eat, the clothes we wear, the security of the homes we live in, the bounty of Nature, and the privilege of being alive. *Thanks* for being a member of our great profession and entitled to the benefits of

our Dental Society. . . . If you believe this with all your heart, please do not forget the DENTAL RELIEF. The average donation last year was \$1.87 which is pitiful. Let's remember our distressed fellow dentists. Get behind Roby Robeson and show what West Suburban can do. . . . Last Branch Meeting of 1951—Tuesday, December 11. Dinner, 6:30. The speaker, Dr. Robert A. Atterbury; the subject, "Antibiotics of Choice in Dentistry." The original speaker scheduled for this date will unfortunately be out of town, so Bob Atterbury is pinch-hitting after much persuasion. Let's give him a big turnout and a big hand for being a good sport. Thanks a million, Bob. His discussion will include the choice of penicillin, bacitracin, aureomycin, chloromycetin and terramycin in a variety of oral infections, supplemented with dosage administration and illustrated with Kodachrome slides. Please 'phone Ev. Walter, Village 8-0872, for reservations. . . . !!Round Table!! Monday, December 3, 12 noon. Speaker, Dr. Max Gratzinger, instructor of applied Materia Medica and Therapeutics, University of Illinois. Subject, "Periodontal Trauma—What Is It, How Is It Introduced, How Is It Eliminated?" All meetings at Oak Park Club. For luncheon reservations, please 'phone Irv. Slaby, Olympic 2-4241. If you wish to attend, all that is necessary is membership in the Chicago Dental Society. Everyone welcome! . . . *Novus Infans*—Thomas Charles, weighing 7 lbs., 10 oz., to R. E. and Mrs. Randolph, of La Grange, on October 29 (almost a Halloween baby). . . . Thomas John Frymark was a year old on October 21. His parents, John and Mrs. Frymark, say he is a chip off the old block and that incidentally he chipped his front teeth. Well do I remember the anguish I went through when my little fellow fell down the basement stairs and knocked out a tooth which we never did find. X-rays were a great relief when we found no trace of it in the lungs. Keep your chin up. John, he'll be as handsome as you. (We slipped up on a notice of Thomas' birth). . . . Very happy to report that

Art Adams of Elmhurst is okay. He injured his eye while hunting in South Dakota and although it was a great worry for a while, recovery was rapid. . . . Austin YMCA celebrated its 25th anniversary. W. Wicklund was chairman of the dinner celebration and Joe Voita has been very active with this group, also. . . . Walter and Mrs. Wicklund went to the homecoming last week at Boulder, Colo. Their son Eldon is a senior in the School of Business at Colorado University. . . . Have reports that Irv Slaby is a very able leader for the Cub Scouts of Riverside. My heart goes out to you, Irv, I had them for a year—incidentally, it was the best year of my life. Irv is secretary and treasurer of our Round Table. . . . *Oak Park Camera Club*: Ed Black took a "first" with a Western ancient village scene in black and white. Paul Topel took a "second" with a Loop scene of the Continental Illinois Bank. Dentists have taken three out of four "firsts" with this club. Congratulations! They report loads of fun. . . . G. Crane, current president of the Optimists Oak Park Club, and John Hauff, together with a group of Optimists, spent a week at Don Miller's camp at Lake Namakogan, Wis., and fished the flowage of Chippewa's River. Fine fishing; fine time. . . . Rallie Lewis and party hitting a few high spots during trip to the American Society of Oral Surgeons meeting in Washington: "We left Chicago on Saturday at 6:00 a.m. in a pouring rain, reached Oxford, Ohio, where Nancy is attending Miami University, went to the football game in the afternoon, then took the girls down to Cincinnati to the Plaza Terrace Hotel, where we had dinner and remained all night. Our next stop was Charleston, W. Va., where Daniel Boone was born, a beautiful town on the Kanawha River. The Kanawha and New Rivers join here and the sights are beautiful. Next, White Sulphur Springs and the Greenbrier Hotel, had lunch at the Casino on the golf course made famous by Sam Snead. We tarried at the Homestead for a short time and passed over Goshen Pass, where there are too many

points of interest to mention, then to Lexington where General Lee is buried (his family, too) on the campus of the Washington and Lee University. Natural Bridge was just as beautiful as ever, gets more that way every time you visit it. We went over the "Skyway Drive," through Rockfish Gap, Va., to Swift Run Gap and the panoramic view of the Shenandoah Valley, which is beyond description. We stopped at Charlottesville, where the home of Thomas Jefferson, called *Monticello*, was built in 1797 on a high hill. Then we visited James Monroe's home—*Ash Lawn*. We reached Washington right in the middle of heavy traffic and got lost at the corner of K & 17th Sts. Mrs. Lewis attended a ladies' luncheon at noon, then a bus took the ladies to Arlington, back to Blair House where Mrs. Truman entertained them at tea. They also saw Vice-President Barkley but he didn't make much of a hit with them. We attended the Senate on Friday." . . . Ev Walters made a quickee trip to New Orleans—convention of some sort. . . . Benjamin Franklin made the statement, "An investment in knowledge pays for the best interest." . . . **IMPORTANT!!** The Constitution was approved by the officers and the directors. A copy may be had for the asking from our secretary, Lyle McNamara. At the Dec. 11 meeting the members of West Suburban Branch will vote on it. . . . After attending the biennial meeting of the Angle Orthodontia Society in Sky Top, Pennsylvania, from October 21 to 25, Beulah G. Nelson took herself for a quick fall vacation in Washington, D.C., returning to her office the early part of November. . . . Clarence A. Hanson represented the Chicago Dental Society at the Illinois Conference on Physicians and Schools, in Urbana on November 15 and 16. The conference was held in the Illini Union Building on the campus of the University of Illinois. . . . Sorry to report that Paul Betty underwent an operation. Speedy recovery, Paul! . . . Anthony Malone presented "Oral Habits" to Detroit District Dental Society on October 28. . . . Thomas Barber attended the National Meeting

of the American Society of Dentistry for Children, in Washington, D. C. Also, he gave a paper on "Interceptive Appliances in Pedodontia" in Niles, Michigan, on November 14 and again on November 15 to the Princeton, Illinois, Society. . . . Back to Malone, who recently completed a movie on "Oral Habits," which has been shown at Buffalo, N. Y., and Denver, Colo. meetings.—*Olaf S. Opdahl, Branch Correspondent.*

WEST SIDE

The West Side Branch is proud to announce its CLINIC DAY to be held on Wednesday, December 12, at the Midwest Hotel, 6 North Hamlin. An extremely fine program is being planned by Michael DeRose, Chairman; Joseph Porto, Vice-Chairman; and their very capable committee of fine workers, including Irvin Altheim, Maury Massler, Arthur Meyer, and Bernard Rodin. One of the high-lights of the program is After-Dinner Speaker, *State's Attorney Boyle*, who will discuss, "Crime and Narcotics." Dentists, wives, families, dental assistants, and hygienists are cordially invited to attend Clinic Day. Table Clinics and Essay Presentations promise to be most interesting. There will be a cocktail hour from 6 to 7 p.m. Mark December 12th on your social calendar. It's a date you'll remember for years to come. Don't miss this all important *CLINIC DAY AND EVENING*. . . . On November 13th, West Side Branch was privileged to have as its guest speaker, Dr. Herbert Koepp-Baker, Professor of Clinical Speech Pathology and Director of the Cleft Palate Training Center and Program in the Department of Otolaryngology at the University of Illinois College of Medicine. Dr. Koepp-Baker's theme, "The Cleft Palate Child Meets the Dentist," was indeed interesting, enlightening and educational. Orchids to Fred Bazola, Program Chairman, for contacting such excellent speakers for our branch meetings. We certainly appreciate your splendid work, Fred. . . . Carl Madda, Past-President of the Arco-

leans, reports their annual smoker was held on November 12th. . . . Orchids, too, to I. C. Miller and Harry Robbins for their fine work in taking charge of dinner arrangements. . . . Congratulations to Nate Addis and his family who recently moved into their new home. Best of luck, Nate! . . . Happy to hear that Harry Epstein is feeling much better. He's up and around now. . . . Bill Bingaman is back from his "Shangri-La" sojourn. Still a secret, eh? . . . Again, don't forget those news items—my phone number is Nevada 8-0098—or if you're on vacation, drop a card to me—3203 W. Madison Street. I'd certainly enjoy hearing from you. **AND MOST IMPORTANT—DON'T FORGET CLINIC DAY — WEDNESDAY, DECEMBER 12—AT THE MIDWEST HOTEL.** I'll be looking for you.—*Carl Weiss, Branch Correspondent.*

KENWOOD-HYDE PARK

Wayne Fisher's son, Wayne, Jr., is in the Army at Biloxi, Miss., working hard between 8:00 and 5:00 doing prosthetics oral surgery and operative dentistry. Wayne & Mrs. Fisher are going down to spend the Christmas Holidays with Wayne, Jr. . . . Jesse Carlton & Mrs. Carlton spent a week end in Bloomington, Ind., the home of Indiana University where Jesse's daughter Nancy is in attendance. . . . Walt Dundon is still painting his house and he hasn't even put up his storm windows yet. He says that attending the A.D.A. meeting in Washington, D.C. kept him from doing his home work. . . . Mort Isay is really happy with his downtown office, and he also spent some time in California this summer. . . . Graham Davies caught a bonito (small sailfish) in the Bahamas over Labor Day. . . . Milt Braun, an old classmate of mine and who is an orthodontist, will be at St. Louis University along with Howard Strange this week. Hope all the snow has melted. Milt also spent a few weeks this summer at White Sulphur Springs with his family. . . . Dr. Weaver,

Why Nobilium?

Because Nobilium, the Aristocrat of Chromium Alloys, provides every possible quality for your patients. Nobilium restorations satisfy COMPLETELY . . . leave nothing to be desired. For a quick check of the many qualities you get when you specify this increasingly popular alloy refer to the check list.

NOBILIUM PRODUCTS, INC.

125 North Wabash Avenue, Chicago 2, Ill.
914 Walnut Street, Philadelphia 7, Pa.

✓ PRECISION Accuracy is assured through the use of Nobilium and Nobilium materials and techniques.

✓ DENSITY Nobilium's hardness prevents abrasion or indentation.

✓ ELECTROLYTIC POLISHING This Nobilium process gives an exceedingly high polish to ALL of the hard-to-reach surfaces including inner side of clasps, difficult undercuts, detail of rugae and boxings for teeth.

✓ LUSTRE Nobilium will not tarnish, nor discolor. Its mirror-like surface reflects the color of live tissue.

✓ CLEANLINESS Nobilium is easy to clean and keep clean.

✓ REPAIRS Nobilium can be repaired without a line of demarcation, clasps added as desired.

✓ COMFORT Nobilium is completely compatible with tissue and its smoothness prevents irritation.

✓ LOW COST While Nobilium is known to dentistry as "The Aristocrat of Chromium Alloys" Nobilium restorations are still *inexpensive*.

✓ LIGHTNESS

Nobilium's extremely low specific gravity makes even the largest partials light in weight and more comfortable.

✓ STRENGTH Nobilium's great strength makes it possible to cast thin bars, clasps, saddles and palates.

✓ RESILIENCY Nobilium's unusual resiliency assures the superb functioning of clasps.

✓ CLASP ADJUSTABILITY Nobilium clasps may be adjusted without fear of breakage.

. . . Nobilium is used exclusively by one of America's greatest Mid-western Universities. Extensive investigation and exhaustive tests in every conceivable type of partial restoration have evidenced the wiseness of this selection.

NEWS OF THE BRANCHES

(Continued from page 19)

of the Marshall Field Annex, was out to our meeting on the worst night of the year to pick up information on plastic fillings from Dr. Eugene Skinner. . . . Lutton is now driving a beautiful light blue (to match his eyes) new car. He sure is tickled with it. . . . Elmer Ebert came home five hours late from Washington, D.C. Was he burned up! Elmer, how did you explain those five hours to the wife—nobody else's train was late? . . . Bob Wells has been under the weather for a spell. Get well soon, Bob. . . . December 4 will be our next meeting. Dr. Ed Budill & Dr. Syl. Cotter—subject, "Obligations of the Oral Surgeon to the General Dentist." Cocktails at 6:30, dinner at 7:00. Phone Howard Harvey for reservations, VI 6-3059.—*Lawrence H. Johnson, Assistant Branch Correspondent.*

NORTHWEST SIDE

COLUMN: I looked up the word in an Encyclopedia. It listed two types—Architectural and Military. This COLUMN must be the latter type inasmuch as there was no definition for a 'news' COLUMN. The definition was—"A formation in which the elements are placed one behind another as distinguished from a line formation in which the elements are abreast each other." Then it goes into much detail about each type, supply, ammunition, etc. I immediately decided this could not be what I was writing because this *column* has not had 'supply' and is definitely lacking in 'ammunition.' However, I shall stretch my information abreast and expect it to put on a good front. . . . Joe Zielinski was popping a few buttons and justly so! He is a grandfather! You sure are holding up well, Joe! You don't look old enough. . . . Many of us have seen, or soon will see, the hit show, *Gentlemen Prefer Blondes*, currently playing in the loop. Harry Harnick's youngest son, Jay,

is in the cast of that company. This young man, while a student at Northwestern U. Music School, wrote the music for the famous student production, *Waa-Mu*, which plays to capacity audiences every spring. Harry also has a daughter-in-law helping to make the New York show, *Top Banana*, a hit in that town. That's a lot of talent in one family! . . . George Ulvestad got out of town just in time to miss the snow. He and all smart birds fly south when the leaves fall. George stopped in New Orleans long enough to attend a dental meeting, and then went on to visit his son, a practicing dentist in Midland, Texas. . . . It was a great shock to all of us at North and Crawford to hear of the passing of Mrs. Charles Frost. We extend our deepest sympathy to Charlie in his great loss. . . . To M. I. Fox also goes our sympathy in the loss of his father. . . . The Board of Directors, somewhere, must have declared an extra dividend, or Thad Olechowski hit the jackpot. His equipment is being 'refinished,

he is moving into that new swanky office, and now he has acquired a new Oldsmobile. What's the secret, Thad? . . . We feel greatly encouraged at the increase in attendance at our monthly meetings. The excellence of our programs is probably a factor. Mr. Mutchnick of Abbott Laboratories gave a good discourse at our Nov. 13 assembly, on "Antibiotics in Dentistry," which dovetailed right in with the fine paper and colored movies ably presented by Drs. Ed Budill and Sylvester Cotter. . . . We were happy to welcome Stanley Brzezinski recently returned from Korea and hope to have him tell us about the "Police Action" at one of our coming meetings. . . . The A.D.A. Meeting in Washington was well-attended by Northwestsiders. Irv Neer gave a clinic at the Convention which was given much publicity by the Washington newspapers. Our branch had three delegates present, Bob Placek, Glenn Cartwright and Herman Wenger. Herman gave a fine report (at our Nov. 13th meeting) on the highlights of the Wash-

ington sessions, bringing us up-to-date on the Social Security problems and the Insurance Bill. . . . Ed Friedrich recently read a paper at the Evanston Naval Armory to men in the Navy Dental Corps stationed at Great Lakes. . . . Send all ammunition for this column to SP 2-5029.—*Folmer Nymark, Branch Correspondent.*

ENGLEWOOD

Look, Ma, I'm writin'! My first exclusive—Glen Walden was married to Miss Elba Zanni of Hillsboro, Ill., on November 3. Our very best to you, Glen. . . . Our inveterate hunters, Finley, Medsker, and Borgerding, spent ten exciting days in the wilds of Quebec and came back with no less than three mooses—meese—mice?? Wait a minute. Dr. Finley shot a moose. Dr. Medsker shot a moose. Dr. Borgerding shot a moose. So there! Seems they nearly did their car in due to rough roads—or too many of them thar animules hanging off'n it?? . . . Bill Rennie has been after a few birds out Missouri way. Last seen chasing a cripple across the Illinois line. . . . Ted Vermeulen had the feathers flying too. He came in from Pipestone, Minn, with seven pheasants or peasants, there was so much earnest dissertation of things dental going on at the bar at the time that I couldn't get which. . . . Grandpappy Gus Solfronk plans a Christmas Eve visit to that lovely granddaughter of his in Coral Gables, Fla. . . . Belong to a study club? You owe it to yourself, you know. The present groups are going great guns, and Ted Vermeulen will have group number four ready to go in about sixty days. Get behind this movement and PUSH. Help PULL yourself and your profession up. . . . It has come to me that Englewood has recently lost two of its members. I am grieved to report the passing of Doctors A. J. Pearce and William "Bill" Phillips. You know, those slices of raw onion won't taste so good anymore, know what I mean? . . . In the Better-late-than-never department, let me note the appearance of Doctors Houlehan and Slakis

These are the exclusive features and services offered by Twentieth Century:

GARLAND BLDG CHICAGO 2, ILLINOIS
COR WASHINGTON & WABASH

at the Nov. meeting. First time this year for both, but let us hope 'twas not the last. . . . Poor Bob Straub. A brand new maroon Cadillac convertible! I should have it so tough? Wonder where he threw the old one?? . . . Dr. Frank Farrell's Armistice Day program was very well received. Six guests presented table clinics on a nicely balanced group of subjects. A method of removing molars with a root divider was shown by Dr. G. Hoskins, while Dr. Dahl of Northwestern University told of his work in the clinic with space-maintainers for children. Dr. Wm. Burke's subject was "Acrylic Bridge-work," and the problems of re-building dentures was discussed by Dr. R. Morange. Dr. Earl Harris gave us some hints on extractions, and Doctors Kadens and Gorden were kept busy answering questions on practice management. A very full evening. . . . If any of you girls are looking for Ted Lindholm at his old address—don't. He has moved his offices to 2307 E. 79th St. I hear that Dr. Rowan has also made a change. He is

now located on the ground floor at 79th and Bennett.

Dr. L. P. Horevitz, chairman of Englewood's parts in the Chicago Public Elementary School Health Education Program, reports that grades one and five have been examined. Both public and parochial schools have been visited by members of his committee, and he wishes to extend his vote of thanks to Doctors O'Brien, Ned Hohman, G. P. Downing, Jos. Paukstys, Carl Berquist, Bud Baker, J. T. Moran, J. L. Woodlock, Ed Smith, Mike Orth, J. T. Tisoncik, Stanley Jedlowski, S. J. Pacer, and Jos. Propati. These men have given freely of their time and it is hoped that next semester other men will be as generous of their efforts to carry on in this good work when thirty more schools will be surveyed. A call to PR 6-2851 right now will be a step in the right direction. . . . And for goo'ness sakes—DON'T forget the Old Timers' Meeting, Dec 11. Cocktails at six, dinner at eight. . . . I'm tired!—*Romaine J. Waska, Assistant Branch Correspondent.*

NEWS AND ANNOUNCEMENTS

(Continued from page 14)

proval of fluoridation by local medical and dental groups must be submitted by resolution or other document to the Illinois Department of Public Health.

3. In accordance with the Illinois Department of Public Health's statutory jurisdiction over public water supplies, engineering plans and specifications for the installation of the fluoridation process must be prepared and submitted to the Illinois Department of Public Health for review and approval prior to installation.

GIFTS FROM JAPAN

A beautiful porcelain vase more than 200 years old and a "Shakuhachi," a native, bamboo flute used in Japan, have been donated to the Frederick B. Moorehead Memorial Library in Oral and Maxillofacial Surgery by two Japanese alumni of the University of Illinois College of Dentistry.

The gifts were sent to Dr. Stanley D. Tylman, who visited Japan this past summer on a dental mission, by Dr. K. Horiuchi, now residing in Kyoto, and Dr. W. Tsuzuki, who lives in Shimonosheki. Dr. Horiuchi graduated in 1918, and Dr. Tsuzuki in 1916 when Dr. Moorehead was dean.

Dr. Tylman, professor and head of the Department of Crowns and Fixed Partial Dentures, also had occasion to meet with many other graduates of the College of Dentistry during his visit to Japan. As part of the mission, he visited the seven dental schools of Japan where he made a survey of the curriculum, methods of teaching, and physical plant facilities of each institution.

Put on your "BUY" focals

Our laboratory employs only trained technicians to handle your work. Messenger boys run errands here. They don't pour models, polish dentures and what not.

The best of materials are employed because long ago we found that quality is produced cheaply only when the best materials are used.

Our equipment is especially designed for more efficient production. It helps us to maintain a quality of service that reflects well on your reputation.

EXPERT DENTAL TECHNICIANS

4032 MILWAUKEE AVENUE • CHICAGO 41, ILL.

Never before could you do
so much for your denture patients

Specify Trubyte Bioform Teeth for your next full or partial denture and see for yourself how natural and how alive they look in the mouth. The forms of Trubyte Bioform Teeth are all new — so are the blendings in Trubyte New Hue Shades and the "vacuum fired porcelain" of which Trubyte Bioform Teeth are made.

The Result of Recent Biological Discoveries and of Important
Developments in the Manufacture of Porcelain Teeth...

NEW
IN
EVERY
WAY

- Actual copies of attractive natural teeth
- Each size a duplication of another set of natural anteriors
- Harmonize with the outline form of the face, profile and cheek planes
- "Vacuum fired porcelain" — denser, stronger and more "alive" in appearance
- New blends in Trubyte New Hue Shades — react to all lights in much the same way as do natural teeth
- The shades are approximate reproductions of Trubyte New Hue Shades. There are slight variations in the shades of Trubyte Bioform Teeth as is characteristic of fine, natural teeth
- New pin position — increases the retention of the tooth and adds to its strength
- The fully formed linguals are comfortable to the tongue and aid phonetics

TRUBYTE BIOFORM TEETH ARE AVAILABLE FROM YOUR TRUBYTE DEALER

Accurate impressions start here

The material you use in taking an impression is a key factor in obtaining a true and accurate impression. You need a material that has the right consistency — a material that combines sufficient fluidity to conform accurately to all contours of teeth and tissue with sufficient stiffness to be easily controlled. Also, after the material has gelled, it should be removable in one piece without distortion.

DEELASTIC

is a true reversible hydrocolloid that measures up to these requirements 100%. In addition, the technic for taking impressions with this tried and proved material is very simple. Once you try it, we're confident you'll agree with the many dentists who regard DEELASTIC as "The ideal impression material." Order a tube from your dealer and put it to the test.

DEELASTIC can be prepared in the metal tubes in which it is supplied. Available also in small sticks for syringe use.
